

Aura AI HR Workspace Diagnostic Guide

HR Diagnostic Introduction:

This document is designed specifically to verify both OCR capabilities (on scanned images) and Multimodal vision model capabilities (on graphs, flowcharts, and embedded figures).

Page 2 contains a SCANNED MEMORANDUM image with no embedded selectable text. It will test if our OCR Space API fallback reads the text contents successfully.

Page 3 contains an EMBEDDED CHART illustrating employee benefits utilization. It will test whether the Cloudflare LLaVA model can analyze and describe the chart for context extraction.

CONFIDENTIAL HR MEMORANDUM

Date: June 19, 2026

To: All Staff Members

From: Human Resources Department

Subject: Mandatory Policy updates for Hybrid Work Models

Please note the following important updates to our HR policy:

1. Working Hours: All employees are expected to log 8 core hours daily.
2. Core Collaboration Time: Team members must be online between 10:00 AM and 3:00 PM.
3. Timesheets: Weekly timesheets must be finalized and submitted by Friday 5:00 PM.
4. Overtime Approval: Any overtime must be approved in writing by your direct manager.

Failure to adhere to these timelines will result in disciplinary action.

Employee Benefits Analytics Report

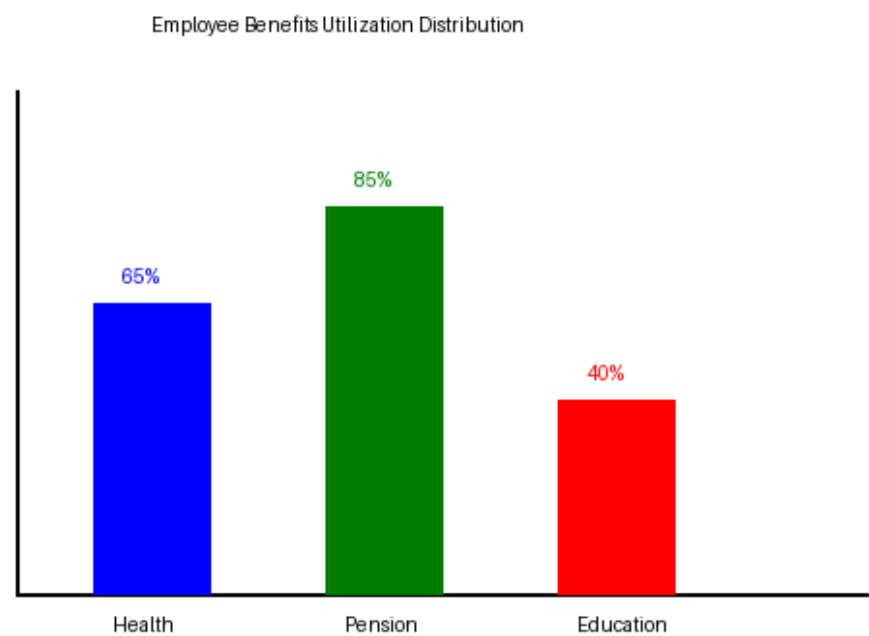

Figure 1.1 above represents the standard benefits utilization distribution among our global employees.

Note: The visual details (colors, percentages, categories) will be analyzed using multimodal vision description systems to enrich the RAG knowledge retrieval database.
